I reiterate once again my support for the Accès Asie Festival. Already 14 years!

In a year that has seen many changes in the world, I applaud the decision to highlight the Tibetan culture. We have much to learn from this culture that comes from the high Himalayan peaks.

The variety and quality of the performances provided by the artists of the East will enchant us once again, I am sure.

I convey to all the staff my best wishes. Your contribution is useful for all Montrealers and I thank you warmly.
